Sistema para puertas de madera
sincronizadas, con apertura en igual sentido,
de tipo telescópico.

Synchronized system for wood doors, that
open in the same direction.

USOS / APPLICATIONS

Divisiones de ambientes residenciales,
comerciales e institucionales / Residential,
commercial and insitutional partitions

Para puertas de madera y marco de aluminio
/ For wood or aluminium frame doors

CUALIDADES

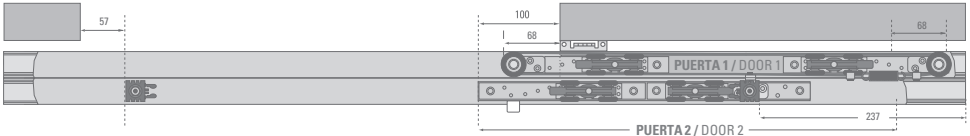

- | Un sólo movimiento abre ambas puertas en el mismo sentido.
- | Permite una mayor amplitud en accesos.
- | Freno incorporado para un cierre amortiguado y seguro.
- | Para puertas con marco de aluminio o madera.

FEATURES

- | Doors will open, synchronized, in the same direction with only one movement.
- | Allows flexibility of space, through a wide amplitude of access.
- | Stopper gives a soft and safe closing.
- | For wood or aluminium frame doors.
