expert tips

Select the Right Pull Length

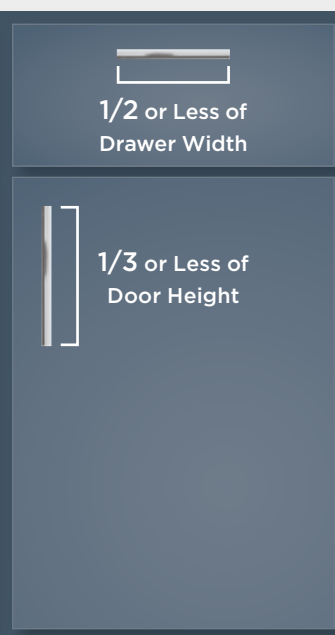

Gone are the days of **cookie-cutter design**. Make a **bold statement** with a **variety** of pull lengths.

- 1 Looking to create a dramatic style with clean lines? You can use **longer pull lengths**, extending up to the **full length** of the drawer or door.
- 2 For a more classic look, a general rule is that the **overall length** of the pull should be no more than **1/2 the width** of the drawer or **1/3 the height** of the door.

1 Dramatic Style

2 General Rule

leading-edge finishes

Leading the pack with **trend-forward** finishes.

Amerock **continues to lead** the cabinet hardware category with the introduction of **three new finishes**: Silver Champagne, Black Brushed Nickel and Black Chrome.

Pulling from **emerging trends** in home décor, these finishes are designed to coordinate with those at the **forefront** of **lighting, plumbing, and appliance** design.

COMPLEMENTING FINISHES

For more details on creating a unique look with finish pairings, see pages 30-33.
